COLIVING STATS

"In every region, few big players own close to 60-70% of the coliving market. Having said that, an increase in the number of operators gives an indication that there is more headroom for expansion, especially in countries where penetration is low." - *Co-Liv Report 2019*

Coliving Hub

ABOUT US

Coliving Hub is an association of Coliving spaces, providing networking and business opportunities online and offline.

Coliving Hub organizes an annual conference that acts as a forum for all players in the industry to display their expertise and network with other coliving house operators.
